

Access2Funding

It is a campaign to give disabled business owners more chances and better access to money.

There are lots of things that stop disabled business owners from being able to get money and help because they are disabled.

We are collecting information from disabled business owners to understand what is happening, this has not been done before.

We are helping people that give money to businesses better understand disabled people.

We are making a group for disabled business owners where they can share their stories.

The people that filled out our survey are from lots of different backgrounds such as race, religion and disability.

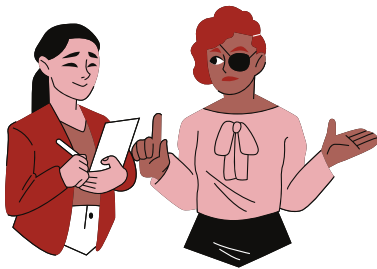

96% said that disabled business owners are not seen enough.

92% said that there is not enough focus on money opportunities for disabled business owners.

84% said that they do not have the same chances and tools as business owners that are not disabled.

Disabled business owners are left out of conversations about business owners.

There are lots of things that stop disabled owners from getting money which are not their fault, such as what people think of them.

Only 17% of disabled business owners said they are treated the same as non-disabled business owners.

There is not enough advice, chances, tools, information and help for disabled business owners.

With the price of everything being very high, helping disabled business owners is important.

25% of small sized businesses in the UK are owned by disabled people.

Disabled business owners have a big and good impact on the economy of the UK.

There is 500 million pounds that could be being made by disabled owned businesses if there was better help.

25% of the small sized businesses in the UK are owned by disabled people.

We have a pledge that businesses can take part in to be better at helping and supporting disabled business owners.

In July 2023 we will be releasing a bigger paper on all of the findings that we have made.
